- Rules -

(This will be viewed as a pop-up screen to assure that both players know the instructions)

Pick a number from 1-10.
You get 5 picks.
You may repeat the number that your opponent picked if you feel that it is correct.

In the event that both players pick the correct number, or neither players pick the correct number, then both players have the option of agreeing on starting a new game.

If they agree then the jackpot for the new game will be \$18.50
If they do not agree, then both players leave with \$9.50

Notice

All questions are asked on level 'expert'.

When you click on an amount you will automatically enter a room with a human opponent.

A baseball trivia question will be asked; whomever answer correctly first gets the winnings shown.

The Rule we use to determine your winnings:

If you win a game you get double the amount you paid to enter the game, minus 5%.

For Example, if you entered the \$10 game, and you won, your prize money would be \$19. (This is because you put in \$10, and double that is \$20, since $20 * 0.05 = 1$, so $20 - 1 = 19$).
